KENNETH K. LANDES, EDITOR, UNIVERSITY OF MICHIGAN, ANN ARBOR, MICHIGAN

June 1, 1951

Mr. Leslie Bowling
510 California Company Building
New Orleans, La.

Dear Mr. Bowling:

I appreciate your letter of May 23 and am very glad to hear of the progress of your plans for the first annual meeting of the Gulf Coast Association of Geological Societies in New Orleans, November 15, 16 and 17, 1951.

It will be a pleasure to me personally and on behalf of the American Association of Petroleum Geologists to accept your invitation to be a speaker on your Thursday morning program. The term "guest speaker" sounds a little startling to a working man but I will be glad to make a little talk.

I trust you and your committee will call on any of the members of our executive committee and our headquarters staff in Tulsa for any assistance we may be able to extend to your meeting.

With best regards, I am

Sincerely,

FAM:LMS
