EAST TEXAS DIVISION
POST OFFICE BOX 2025
TYLER, TEXAS

June 5, 1951

Mr. Leslie Bowling
Gulf Coast Association of
Geological Societies
510 California Building
New Orleans, Louisiana

Dear Les:

In reply to your letter of the 23rd, our Associate Editor is John Read and the Alternate is E. M. Hurlbut. Read's address is Amerada Petroleum Company, Box 2026, Tyler, Texas. Hurlbut's address is Shell Oil Company, Box 2037, Tyler, Texas.

I have done some preliminary thinking on the advance program samples and hope to submit them in rough form for your approval sometime this next week.

My intentions are to get the publicity photographs in the mail during the coming week. In preparation for this I am returning one of the photographs for a left to right description of the colorful characters except the fish. I find I do not have the names of two of the members straight in my notes. Please include in your letter the companies and the societies they represent.

Yours very truly,

R. W. Eaton
